

MOBILE SKILLS ACADEMY

*"A Training Enterprise -
In a Mobile Space Solution"*

What is a "Training Enterprise"?

A Training Enterprise is a corporate education facility simulating business as closely as possible –

A Model of Economic Reality.

Training Enterprises facilitate the implementation of action-oriented learning, in business training. National and International networks of Training Enterprises create realistic scenarios for covering all major business tasks and functions. Several thousand Training Enterprises in more than 50 countries, allow all participants to establish a multitude of business relationships – **Guided by the objectives of the Engineered Training.**

Training, in Training Enterprises equips future workers with in-depth business experience and provides an excellent opportunity to improve their social skills and develop their key qualifications. Communication and relations with business associates from other cultural back-grounds are being experienced at an earlier stage.

It is necessary for the technical students to get ideas how to sell goods produced by them. Technical knowledge and business knowledge should be connected optimally. Business students should get knowledge about the technical environment and the production area too.

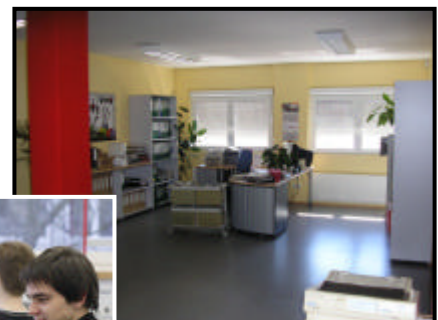

Simulation-Based Practical Training –

Promoted within Country

A Job-Oriented Training Network for commercial, administrative and business raining within a Country should be established. Basing it on the needs of a Western Market Economy, The Training Network should be implemented as a Training Enterprise Network.

The project will utilise existing resources, both capital and human. Networking between the education and the business sectors will render a relevant contribution towards employment and economic development.

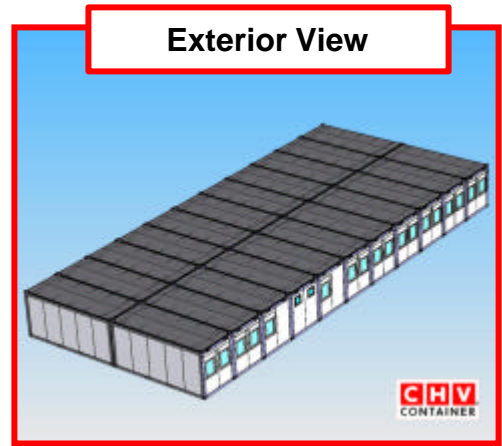

Conceptual Preview

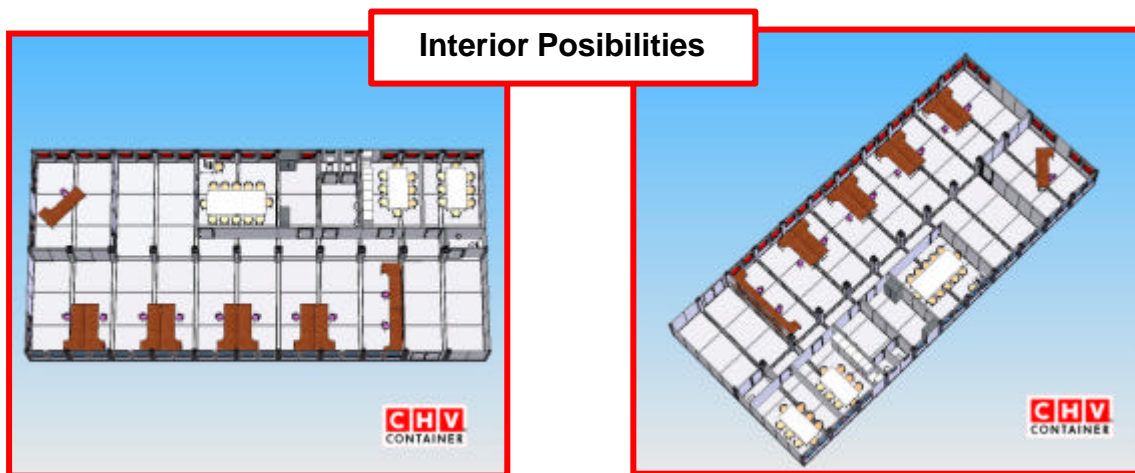

Here you can see a typical 3-D illustration of a –

MOBILE SKILLS ACADEMY Training Enterprise

This is only one example. Your Training Enterprise will be engineered for your needs and style requirements. The combinations and choices are virtually limitless. Our Design Team and Project Manager will help you determine the best combination.

Below illustrates just a couple of ways how the interior of the Training Enterprise can be configured. Your Training Enterprise will be engineered for your needs and style requirements. (e.g. working rooms, learning rooms, leisure rooms, sleeping rooms, eating rooms).

All variations of Education and Training are possible!
